Objectives

STUDENTS WILL LEARN,

- To Plant trees that contributes to the preservation of biodiversity by providing habitats for various species of plants, animals, and microorganisms.
- To promote environmental sustainability and eco-friendly practices.
- Tree Plantations offer students a practical, hands-on learning experience in environmental promotion, forestry and related fields.
- To foster a sense of responsibility towards environment.
- To promote importance and waste reduction in the campus.
- To keep the classrooms and premises of the campus clean.

Report

Title: Tree plantation- Clean & Green

Date: 02.09.2022

Time: 02.00 PM

Venue: College Campus

A clean and green programme & Tree plantation Programme was conducted in the college premises in the afternoon by NSS volunteers and students. The programme was led by Dr. Srinivas, NSS programme officer, Sri.S.Saravana, NCC Programme officer with the support of other teachers. All the volunteers are divided into 2 groups. The first group has cleaned the garden in front of Office room surroundings in Campus premises, and dumped the waste in vermin compost pit. The second group removed the weeds and unwanted plants and bushes behind the Kalavedika. Then the students have cleaned their hands and legs and

refreshments were served to the students and NSS volunteers. The programme concluded on a happy and satisfactory note.

STUDENTS LEARNED ABOUT

- To gain practical experience in tree planting, fostering a deeper understanding of environmental science, biology, and forestry concepts.
- To maintain green spaces, reduce pollution and keep the campus clean
- To implement eco-friendly practices like waste reduction and recycling
- To develop leadership, teamwork and management skills
- The programme raises awareness among students and the community about the importance of trees in environmental sustainability.
